Aditya Soni

Software Developer

Bangalore | adityasoni011997@gmail.com | +91 7400787714 | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Software Developer with 4 years of experience building scalable web applications, enterprise APIs, and database-driven solutions using C#, .NET Core, ASP.NET Web API, SQL Server, and Angular. Experienced in delivering end-to-end features across UI, API, and database layers, optimizing application performance, and working in Agile teams for global clients. Hands-on exposure to Azure services, REST integrations, secure backend design, and clean architecture principles. Known for writing maintainable code, troubleshooting production issues, and collaborating effectively with cross-functional teams.

TECHNICAL SKILLS

Languages	C#, SQL, JavaScript, TypeScript
.NET Stack	.NET Core, ASP.NET Web API, Entity Framework Core, LINQ, REST API development
Frontend	Angular 13, HTML5, CSS3, basic React
Database	SQL Server, stored procedures, query optimization, data modeling
Cloud / DevOps	Azure App Services, Azure Functions, Azure DevOps, CI/CD, Git, GitHub
Architecture	OOP, SOLID principles, Clean Architecture, layered architecture
Testing / Process	Agile/Scrum, debugging, code reviews, API testing, unit testing fundamentals

PROFESSIONAL EXPERIENCE

Software Developer | PODTECH | *June 2025 - Present*

- Develop and enhance enterprise web applications and APIs using .NET technologies, SQL Server, and modern UI integrations for global clients.
- Optimized API response times by nearly 50% through consolidated stored procedures, better query patterns, and backend performance tuning.
- Worked across API and data layers to improve scalability, reliability, and maintainability for business-critical modules.
- Integrated React-based data visualizations using Apache ECharts to improve dashboard usability and data presentation.
- Collaborate with distributed teams on analysis, debugging, deployment support, and iterative feature delivery in Agile environments.

Software Developer | Taritas Software Solutions | *Nov 2022 - May 2025*

- Built and maintained backend services using ASP.NET Core Web API and C# for business applications with secure, scalable architecture.
- Developed and supported frontend modules in Angular 13, collaborating on UI enhancements and end-to-end feature delivery.
- Implemented JWT-based authentication, role-based access control, and robust API contracts for internal and client-facing modules.
- Worked extensively with SQL Server, stored procedures, and data serialization to support responsive UI experiences and reporting needs.
- Participated in Agile ceremonies, bug fixing, code reviews, and cross-team coordination to deliver clean, maintainable solutions.

System Engineer | Infosys Limited | *June 2022 - Oct 2022*

- Completed Microsoft .NET training and strengthened fundamentals in object-oriented programming, web development, and RESTful services.
- Built CRUD-based web application components and practiced clean coding, debugging, and software engineering fundamentals.

SELECTED PROJECTS

RoleGenie - AI Resume Optimization Platform | *FastAPI, React, TypeScript, Tailwind CSS, SQLite*

- Built an AI-powered application that analyzes resumes against job descriptions and helps improve content, structure, and alignment for better job targeting.
- Designed backend APIs and frontend workflows for resume upload, optimization, ATS-oriented feedback, and downloadable outputs.
- Integrated AI-driven analysis into the application so users receive tailored resume suggestions based on the target role and job description.

Stock Analysis API | *Python, FastAPI, AI-assisted analysis*

- Developed a stock analysis backend service that uses AI-assisted analysis to interpret market data, indicators, and trading signals.
- Structured the application with modular APIs and integrated external data sources for stock insights and analysis workflows.
- Focused on clean backend design, extensibility, and practical analysis output for decision support.

EDUCATION

Bachelor of Engineering (B.E.) - Gyan Ganga College of Technology, Jabalpur | 2015 - 2019
